

## Tackling tobacco - a New Year's resolution for the government

24 December 2010

Jean King, Cancer Research UK's Director of Tobacco Control, has responded to an article by the President of the National Federation of Retail Newsagents on the Lib Dem Voice website on the point of sale display of tobacco products.

Jean makes a strong case for the need for such displays to be banned and counters the arguments repeated by the tobacco industry and their supporters. She explains that whilst the introduction of plain packs would be an extremely important step, this would not eradicate the need for a display ban.

Jean's article can be seen on the LibDem Voice website [here](#).
